

Did you know that our radar signs collect data?

Yes, you read that right! All units can collect data such as, time of day, date, vehicle count and speed which helps pinpoint when to set up enforcement. These units come cloud connected which allows the user to change settings, retrieve data and check system health remotely. You can also receive live alerts, so if a speed threshold is exceeded, you will get a notification in real time.

MOST POPULAR

SafeFace EV 12

Power Options:

- 2 x Battery 12V DC
- AC 100-120VAC

- Display Messages / Emojis

EV 18FM

TRAILERS ALSO AVAILABLE!

The versatile speed trailers deploy in less than 3 minutes with a simple crank that allows you to raise and lower the sign face. The sign face can be simply rotated toward traffic, allowing you to park the speed trailer in any position.

If you have any questions, feel free to email: sales@cedarsignsinc.com or call 519-740-0376

Thank you and have a great day!
